

Bundled training supplies

NSC First Aid Instructor Bundle Kits are a convenient way for Instructors to start training or replenish supplies. Most kits contain everything instructors need to teach their first 24 participants. That includes manikins, AED trainers, Epi-Pen trainers, participant workbooks and more!

You can choose:

- Kits for teaching in a 2 to 1 manikin to course participant ratio
- Kits for teaching in a 1 to 1 manikin to course participant ratio
- Teaching supply refill kits for instructors who already have their manikins
